Teeth straightening to boost teenagers' confidence

- Fixed metal braces
- Fixed ceramic braces
- Invisalign®

ST MICHAEL'S
orthodontics

**Free consultation
and £500 off***

*See overleaf for full terms and conditions

The summer season can be the perfect time to **explore teeth straightening options** for your loved ones – especially for teens who are self-conscious around their friends and classmates.

Whether they qualify for NHS treatment or not, we provide private solutions with much shorter waiting times – so you can see their confidence grow sooner. To help you spread the cost of their new smile we also offer **0% finance affordable payment plans**.*

Our teeth straightening treatments include:

Fixed metal braces

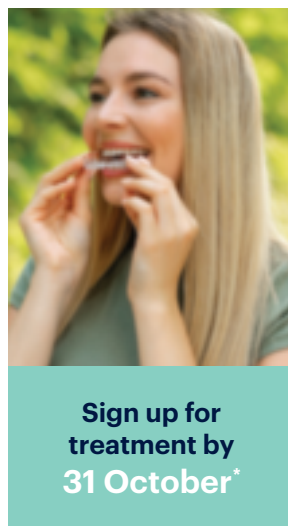

Made with metal brackets that are attached to the front of teeth and connected by metal wire – these traditional braces are a popular choice.

Fixed ceramic braces

A more discreet solution that uses tooth-coloured or clear ceramic brackets. They're more aesthetically pleasing but work just like metal braces.

Invisalign® clear aligners

The latest in clear aligner technology, Invisalign® is custom-made and virtually invisible. They can also be removed to eat, drink and brush teeth.
